git help

google !!

git branch

http://nvie.com/posts/a-successful-git-branching-model/

master

keep master running

Need to add new feature ?

Need to fix bug ?

$git branch **feature**

$git checkout **feature**
feature

master

$git checkout -b **feature**

When ready to merge into master

How ?

$git merge **feature** master

$git merge --no-ff

branching is cheap

painless development

delete branch **if it's not work**

delete branch **if it's not use**
